

New APP Version 11.0.0

What's New in This Version?

- **Gallery Redesign project:** delivery of the **enhanced gallery page** with a brand-new experience to showcase hotel images in the most captivating way.
Stay tuned for the upcoming app release, which will introduce a redesigned single-image full view and more
- Introducing the new feature “**Link reservation**”: Members can save upcoming bookings to their account to earn points
- **Display points** in “My reservations” page
- Deeplink to “My coupons” (voucher) page
- Minor bug fixes & optimizations

See the full list of tickets included:
