

Green care is our social responsibility

At Park Plaza Victoria Amsterdam we care about our guests as well as about the physical environment and the social environment in which we operate. Therefore we are delighted to be Green Globe certified. [Green Globe](#) is the premier global certification for sustainable tourism in more than 90 countries. [Green Label Service](#), sustainability consultants for the hospitality sector, guides us during the certification process. Green Globe partners save energy and water resources, reduce operational costs, and positively contribute to local communities and their environment. We are continuously working on improvement in terms of supporting the society and reducing water, waste and energy.

We aim to be there for our guests and our local environment in a sustainable way.

These are some examples:

- We have our own rental bikes
- LED TV's in the hotel rooms
- Energy key cards or motion sensors for hotel rooms to avoid unnecessary use of electricity
- Our Elemis amenities (shampoo, shower gel etc.) are human and environment friendly
- We protect the cultural heritage due to our monumental building
- We support homeless people with our fundraising 'Street Smart'
- All rooms and public areas are cleaned with Ozone water

If you would like to read more about our sustainability policy, please visit our website:

www.pphe.com/responsibility.

We wish you an enjoyable and memorable stay.

Kind regards,

Team Park Plaza Victoria Amsterdam
