

OUR SUSTAINABILITY JOURNEY

At Radisson Blu London, we are committed to operating responsibly, reducing our environmental impact, and making sustainable choices every day. Our hotel embraces green initiatives to create a more eco-friendly stay for our guests while preserving our planet for future generations.

Join us in making a difference by supporting our sustainability efforts:

We recycle your bedroom waste - just leave recyclables next to the bin or in the dedicated section

Reducing Single-Use Plastics - we are eliminating plastic waste across the hotel, ensuring any necessary plastic is recycled.

We are committed to energy efficiency - help us save energy by switching off lights and adjusting heating or air conditioning when leaving your room.

We use sustainable cleaning products and detergents to minimise our impact on the environment.

Enjoy responsibly portioned meals at our breakfast buffet, helping us reduce unnecessary waste.

Opt out of daily housekeeping by placing the tree-hanger on your door, reducing water and energy use.

Reduce your carbon footprint by using public transport or renting a bike to explore the city.

A greener future starts here

At Radisson Blu London, we believe that every small action contributes to a more sustainable world. Thank you for joining us on our journey toward a greener future.
