

WHERE YOU GET TO LEAVE IT ALL BEHIND...

A high-angle, top-down photograph of a person sitting on a light-colored, speckled tiled pool deck. The person is wearing a large, round, light-brown straw hat with a white band. Their arms are resting on their knees, and they are holding a small, round, light-colored container in their hands. A pair of dark sunglasses lies on the tiles to the right of the person. In the background, a blue swimming pool is visible, with a blue metal railing separating the deck from the water. The scene is brightly lit, suggesting a sunny day.

BENEFITS OF SALT THERAPY

Salt Therapy focuses on the source of the problem, and does not just suppress the symptoms.

Benefits include:

- Kills viruses, bacteria and allergens
- Detoxifies the respiratory system (Asthma, Bronchitis & Sinusitis)
- Aids in healing skin conditions (Eczema & Psoriasis)
- Speeds up recovery from physical exhaustion or fatigue
- Promotes relaxation, calmness and better sleep
- Increases metabolism and promotes better digestion
- Helps to alleviate depression, anxiety and stress
- Elevates mental concentration and performance
- Strengthens the immune system

Salt enters the respiratory system, not the stomach, heart or kidneys. It is clinically proven that natural healing methods, such as Salt Therapy, is extremely effective with children, as it is a non-invasive therapy and medication free, children are unaware that they are undergoing therapy, as they passively inhale the micro-particles of salt.
