

Hot spring tubs

Established by the Ming dynasty, South Hot Spring features soothing waters with a steady warmth between 39 and 42 degrees Celsius and a pH between 7.6 and 7.7. We bring this natural mineral water to you in our hot spring tubs so that you can enjoy its therapeutic effects year-round.

For your safety, please note the following terms and conditions before using the hot spring tubs:

- No glassware or breakable container is allowed in a hot spring tub.
- Observe a reasonable time limit while using a hot spring tub—15 minutes is recommended.
- Leave the hot spring tub immediately if you feel faint, dizzy, uncomfortable, or nauseated or if you experience muscle cramps or breathing difficulties.
- You should not use the hot spring tub if you meet any of the following conditions:
 - Persons with heart disease, high blood pressure, infectious diseases, diabetes, vascular disease, cancer, and other diseases
 - Persons under the influence of alcohol or depressants
 - Persons suffering from a skin condition, allergy, communicable disease, or open sores on the body
 - Persons who are under the influence of alcohol, using medication, or weak from lack of food
 - Pregnant or menstruating women
- Elderly persons and children under 16 years of age must be accompanied by an able adult.
- Always be courteous and pay attention to the safety of others.

Subject to applicable law, the hotel and employees shall not be liable for any injury or death.

In case of accident or emergency, please contact a hotel employee immediately.
