Physical distancing meeting room configurations and maximum capacities

One of our highest priorities is the health, safety and security of our guests, team members and business partners. COVID-19 has fundamentally changed the way we organise meetings and events, and we are adjusting our daily operations accordingly.

In response to this, we are also incorporating physical distancing into meeting room setups in line with the Radisson Hotels Safety Protocol and all local laws and legislation. Radisson Hotel Group always follows local / national legislation and regulations as a minimum. In most countries, the required physical distancing is defined. For example, it is 6 feet (or 1.8 meters) in the USA, 1.5 meters in many countries in Europe. If nothing is defined locally, Radisson Hotel Group applies 1.5 meters minimum.
